OBJECTIVE

To obtain a position where I can apply my skills in IT industry. Eager to contribute to innovative projects, gain practical industry experience, and further enhance my technical expertise within a collaborative team environment

EXPERIENCE

Software Developer Intern | January 2025 - May 2025

Neuralcore

- Developed secure user authentication systems with session management and email verification
- Designed and implemented user interfaces with automated reporting and bulk data import/export features to streamline internal processes
- Translated design prototypes into responsive web layouts
- Implemented searchable and interactive data tables using third-party libraries
- Handled full-stack database operations, including data validation and backend logic integration
- Assisted with code deployment and version control in collaborative development environments
- Performed debugging, cross-browser testing, and technical documentation

Online Lending Platform for G&B Finance Inc. (Capstone Project)

- Built a full-stack web platform with landing, registration, login, and chat modules using WordPress and custom coding.
- Developed user features for loan applications, status tracking, and communication management.
- Created admin modules for borrower monitoring, loan restructuring, collection prioritization, and report generation.

Networking Fundamentals Projects | STI College

- Created and tested straight-through and crossover LAN cables for lab activities.
- Configured networks using Cisco Packet Tracer for routing, switching, and connectivity simulations.
- Proposed improved network topologies for a barangay office's computer lab using Cisco Packet Tracer, analyzing the existing setup and designing optimized connectivity solutions with troubleshooting strategies for potential implementation.

Mobile Application Developer | Work Immersion (2021)

Creotec Philippines Incorporated - Biñan, Laguna

- Developed simple mobile applications to support internal operations and employee engagement
- Created tools for basic calculations, including general-purpose and health-related functions
- Built a payroll calculator to automate salary computations, enhancing accuracy and efficiency
- Designed a monitoring system to track attendance, health status, and compliance for employees
- Contributed to improving operational workflows and employee management processes

SKILLS

Soft Skills

- Strong attention to detail with a creative approach to layout and UI design
- Effective team collaboration and professional communication skills
- Quick to learn new technologies with high adaptability and problem-solving ability
- Organized and time-conscious with a focus on meeting deadlines

Technical Skills

- Programming Languages: JavaScript, PHP, Java
- Web Technologies: HTML, CSS
- Database: SQL
- Frameworks & Libraries: Bootstrap, Tailwind, DataTables, SweetAlert
- Tools & Platforms: GitHub, Git, cPanel
- Database Management: MySQL
- Knowledgeable in Object Oriented Programming (Java)
- Basic experience in Cypress
- Other: Version control, basic deployment, responsive design

EDUCATION

Bachelor of Science in Information Technology | September 2021 - July 2025

STI College Santa Rosa

- Cum Laude (Cumulative GWA 1.38)
- Dean's Honors List (GWA of 1.39 | 2023-2024)
- Award of Course Completion in Java Foundation Oracle Academy
- Award of Course Completion in System Administration Linux Professional Institute
